

# OCEAN FRONTIERS II

## MARYLAND DOCUMENTARY PREMIERE

*Ocean Frontiers II* tells the story of how New England, a region steeped in old maritime tradition, is facing a modern wave of big ships, energy industries, and a changing climate, and how residents—both old and new—are coming together to plan for a healthy ocean off their coast. The lessons learned there will help guide efforts here to chart a new path for the Mid-Atlantic's long-term health. A Q&A panel discussion with state and regional ocean experts will follow.

**WHEN:** Thursday, February 20 | 6:30–8 PM

**WHERE:** National Aquarium
